# Aluminum & Hardwood Coat Racks

Whenever large groups gather at convention centers, hotel meeting rooms and other public assembly facilities, they need the rugged practicality of EMCO's coat and hat rack systems. These convenient storage units require limited space and stand up under heaviest use.

- Easy-to-install sturdy aluminum wallstrip and brackets in Satin Black
- Concealed fasteners anchor hanger bars to brackets
- Custom lengths from 2' to 50'+
- Space efficient, non-obtrusive design
- Convenient coat hooks securely fastened in extruded aluminum satin (silver) or bronze slats
- Hanger bar features an extremely durable, scratch-resistant powder coat finish in Black

## R1 System

Shown in Satin (Silver)

This basic hanger system is perfect for hotels, restaurants, churches and schools. It is easy to install and built to last. The slat options are satin (silver) and bronze extruded aluminum as well as the American hardwood selection of light or medium oak and walnut finish.

## U Utility Shelf System

Shown in Satin (Silver)

This utility shelf solves your need for additional storage above an existing shelf or in a storage room by itself. Perfect for lower grade classrooms at just above floor level for storage of boots and other items.

## R2 System

Shown in Light Oak  
Double shelf unit is the right choice in those situations where additional storage is needed.

## Hardwood Selections

Light Oak

Medium Oak

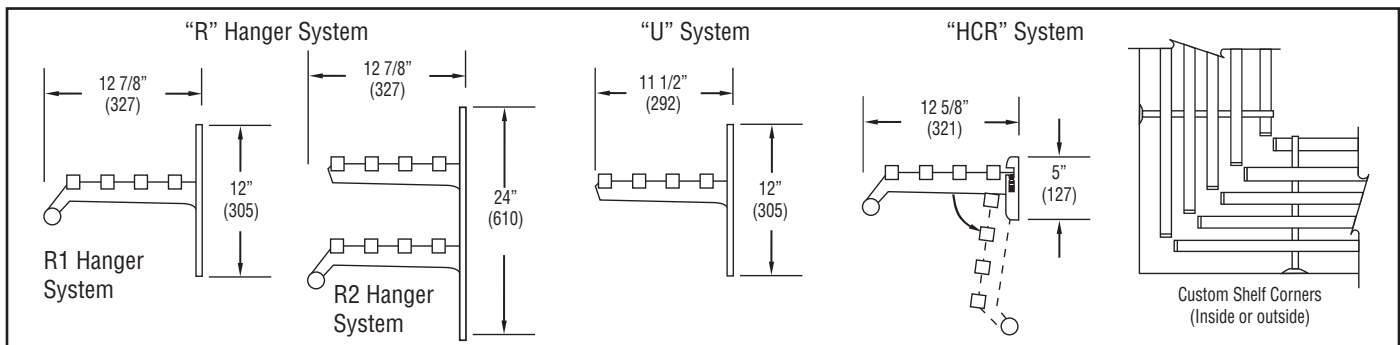

Walnut

## HCR Hinged System

Shown in Medium Oak

EMCO's unique hinged coat rack system makes compliance with the use and access specifications of the American Disability Act (ADA) simple and economical. When not in use, the HCR model conveniently retracts out of the way.

# Coat Racks, Hooks & Hangers

## H1 System

Shown in Bronze

Maximum capacity with a minimum of space. Molded double-pronged polycarbonate hooks come in Red, Yellow, Dark Brown, Gray, Green, Blue, Purple, Orange or Black.

## H2 System

Shown in Satin (Silver)

The perfect solution for those situations where additional storage is needed with the hook system.

## T1 System

Shown in Satin (Silver)

Crush-free coat storage system which includes four No. 11 ball top hangers and locked-in-place receptacles per foot of shelf.

## W Hook Strip System

Shown in Satin (Silver)

Ideal complement under any shelf system. May also be used by itself. Comes with molded double-pronged polycarbonate hooks in the same colors as the H1 system.

The wallstrip is provided with all shelf units on pages 2 & 3, but not with the 30 series shelves. See Series 30, on page 4, for details.

## 10HK Hook Color Choices

The 10HK color hook system is perfect for schools and other organizations that strongly identify with colors.

# Series 30 Hanger Shelf Systems

**#31**

equivalent to the Utility Shelf

**#32**

equivalent to the R1

**#33**

equivalent to the H1

**#34**

equivalent to the W Hook Strip

## Series 30 Hanger Systems

The Series 30 Hanger systems do not include wallstrips.

The bracket is fastened directly to the wall.

- Brackets and hanger rod are satin black
- Aluminum Slat finishes: Satin (Silver) & Bronze
- Wood slat finishes: Light, Medium Oak, Walnut
- Hangers sold separately – we recommend 4 per foot
- Wall fasteners not provided by EMCO
- Hook colors: Blue, green, orange, red, yellow, gray, dark brown, black, purple and assorted

## Hangers & Receptacles

### Model Number 10

Dark Brown molded plastic hanger with a unique non-slip trouser bar. Available in conventional open hook and ball top for use with A, B or C receptacles.

### Model Number 11

The texture of grained leather in a Black, molded hanger. The hook is heavy-gauge plated steel. Available in open hook, ball top for receptacles and theft-proof closed loop.

### Model Number 13

Contemporary design in a choice of Walnut, Light Oak or Medium Oak finished hardwood. Furniture finish with plated hook in open or ball top style.

### Model Number 15

Durable 17" hardwood hanger with lacquered finish. Plated hook in open, ball top or closed loop designs with pants bar. Available with or without skirt clip.

### Model Number 17

Heavily plated hanger of 3/16" wire, shaped, and securely formed to take maximum abuse, available in open hook, ball top and closed loop.

**3 hook styles to choose from! (see chart)**

### Model Number A

Receptacle - Can install over existing rods, then snaps closed permanently. Slides freely on rods up to 1-3/8" dia. Dark Brown finish.

### Model Number B

Receptacle - Fits EMCO 1" hanger rod securely for a fixed spacing. Molded, Black.

### Model Number C

Receptacle - Nickel-plated steel slides on hanger rods up to 1-3/8".

# Hooks, Hangers & Hook Panels

## Hook Collections

EMCO's selection of hat and coat hooks are sure to satisfy your decorating needs. Our hooks are available in aluminum and steel construction. The many color choices give you the ability to add some spice to your work area. If you prefer, we can mount these hooks directly to oak, walnut, maple or unfinished panels, which feature soft radius edges, and come with a concealed wall fastener plate. They will accommodate two, three, four or six hook sizes.

## HOOK DIMENSIONS

Model	Material	Height	Width	Projection	Colors

P1	Aluminum	1-1/2"	1-1/2"	2-1/2"	Black, Silver
S10	Steel	5-5/8"	3/4"	3-3/8"	Black
SLH	Steel	2-5/8"	3/8"	1-7/8"	Silver
Y10	Aluminum	2-15/16"	3/4"	3"	Black, Silver
Hardy-hook	Flexible Industrial Nylon	4-3/4"	1/2"	1-1/4"	Black, Dark Blue, Dark Green, Light Blue, Light Green, Light Grey, Orange, Purple, Red, Yellow

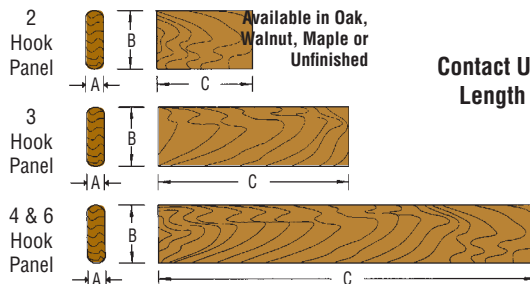

## Hardyhook Collections

Hardyhooks are unbreakable plastic coat hooks. They are an affordable, attractive way to make your cloakroom, changing room or work place smarter and safer. Hardyhooks are made from sturdy yet flexible industrial nylon. The hook supports up to 32 lbs safely while having just enough flex to ensure it never snaps.

## HOOK PANELS

Hook panels are available in Light Oak, Medium Oak, Walnut, Maple or Unfinished solid wood panels, with 2, 3, 4 & 6 hooks per panel. They may be ordered with your choice of hooks and knobs installed.

(All panels are shipped completely assembled)

Contact Us for Custom Length Hook Panels

Number of Hooks	"A" Panel Depth	"B" Panel Height	"C" Panel Length
